Summary

The PBS CDMO Partner Program allows you to expand cell therapy capabilities and support new customer programs—without major upfront capital investment.

Flexible leasing programs give your team access to Vertical-Wheel® bioreactors, training, and support with lower risk and rapid deployment, allowing you to secure new business faster.

If you're building out your cell therapy offering, let's talk.

CDMO Partner Program

Learn More:

Overview

The PBS CDMO Partner Program helps organizations expand their cell therapy capabilities and win new business without major upfront capital investment.

We provide Vertical-Wheel® bioreactors, training, and technical support so your team can quickly launch new programs and deliver with confidence from day one.
