

Credit Redemption Program

Learn More:

Turn Your PBS Investment into Accelerated Scale-Up

The PBS Credit Redemption Program rewards your investment in PBS-Mini systems and consumables by converting early process development dollars into equivalent credit toward your next system or consulting package. Redeem the value you've already earned before it expires.

How it Works

Step 1 - Earn Credits for Purchases

All orders of PBS-Mini bases and vessels from Jan 1, 2023 until Dec 31, 2026 **automatically earn \$1 credit per \$1 spent.**

Step 2 - Redeem Your Credits

Use your earned credits towards the purchase of a PBS-3, MiniPRO, or Success Bundle (credits expire Dec 31, 2026, max limits apply).

Credit Redemption: Vertical-Wheel® Bioreactor System

Target Bioreactor	Credit Multiplier	Credit Earning Window	Credit Limit	Example Case
PBS-3	1.5x	2023 - 2026	\$75,000	You purchased \$10,000 of eligible PBS-Mini products, which can be applied as \$15,000 in credit towards a PBS-3.
MiniPRO	1x	2023 - 2026	\$50,000	You purchased \$10,000 of eligible PBS-Mini products, which can be applied as \$10,000 in credit towards MiniPRO.

Credit Redemption: PBS Success Bundle

Success Bundle	List Price	Max Credit	Potential Cost	Example Case
Basic	\$7,250	\$4,750	\$2,500	You purchased \$5,000 of eligible PBS-Mini products. Apply \$4,750 in credit and pay \$2,500 (66% reduction) for the bundle.
Enhanced (Most Popular)	\$13,000	\$9,500	\$3,500	You purchased \$10,000 of eligible PBS-Mini products. Apply \$9,500 in credit and pay \$3,500 (73% reduction) for the bundle.
Premium	\$18,750	\$14,250	\$4,500	You purchased \$15,000 of eligible PBS-Mini products. Apply \$14,250 in credit and pay \$4,500 (76% reduction) for the bundle.

Summary

Your purchases don't just support today's work — they convert directly into tomorrow's investment in scale-up. With the PBS Credit Redemption Program, your existing spend becomes leverage for what comes next.

Act now — the Credit Redemption Program (and all unused credits) will expire **December 31, 2026**. See full terms and conditions.

Driven By Vertical-Wheel® Technology

for gentle, homogeneous, and linearly scalable mixing.
