Your Quick-Start Package for Cell Therapy Scale Up

The right start makes everything that follows easier. PBS Starter Packs provide everything you need to begin on the Vertical-Wheel® platform—clearly defined, fully configured, and ready to run.

Each package includes the PBS-Mini bioreactor system, single-use vessels, and structured support from a PBS Biotech scientist. Simply choose your desired working volume and support needs and start generating results.

Your Success Shortcut

Everything you need to get started, in one package.

Guided support to achieve results in 3D quickly.

Build and scale on the Vertical-Wheel® platform from day one.

0.1 L Version

IA-0.1-PDK-001-P

0.5 L Version

IA-0.5-PDK-001-P

What's Included

- ✓ 3 PBS-Mini Bioreactor Systems
Compatible with 0.1 L or 0.5 L vessels.
- ✓ 3 Packs of 4 Single-Use Vessels
Available in 0.1 L or 0.5 L working volume variants.
- ✓ Premium Success Bundle
Enhanced Bundle + one addition site visit mid-way through the plan. Travel surcharge applies outside the US/Canada.

Go Vertical from Day One

The PBS-Mini products purchased at list prices in each Starter Pack generate credits (1 credit per dollar) that are automatically redeemed toward the corresponding Success Bundle, reducing your upfront expenditure for expert support.

PBS Starter Packs are the most straightforward way to get started on the Vertical-Wheel platform. Your initial equipment investment is amplified into savings for personalized support, accelerating your scalable manufacturing journey with PBS Biotech as your partner.

Driven By Vertical-Wheel® Technology

for gentle, homogeneous, and linearly scalable mixing.
